

BLACKFEET COMMUNITY WATER PROJECT
BCWP P1-002 East Glacier Water Line/Tank
Contractor - Chief Construction Specialties, Inc.

August 1, 2003

Workers are installing overflow line from EG tank.
Note, all of these workers are local and members of the Blackfeet Tribe. Contractor has been very supportive of local hire.

Installation of DIP for tank, with inspector (on rt.) checking vertical.
[Note lack of cobbles (rock) in these pictures]

Backfill/compaction of area where tank will sit.

Valve and connections at water tank site.

Same site as picture at above right, pouring thrust block. Concrete had to be hauled to site with loader, offloaded by hand.

Connections wrapped and thrust block in place with rebar.
